# The Kennedy Steel Overcast

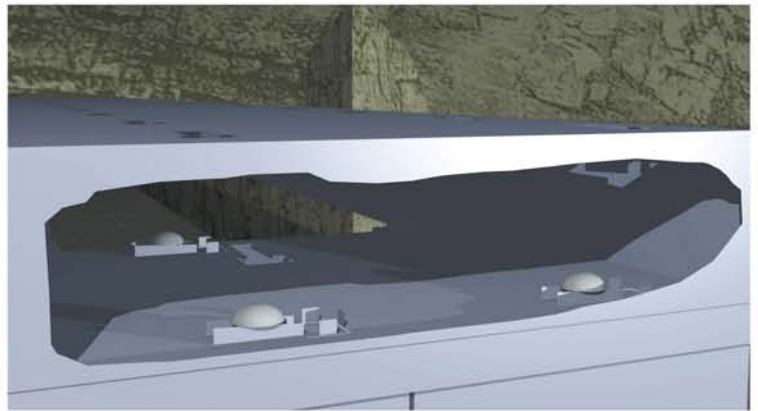

**Better, tighter, faster, more cost effective ventilation structures.**

**The only tool needed is a crowbar.**

**Lightweight yet strong. The heaviest part in an average overcast is about 275 pounds.**

**Interlocking side panels lock to the overcast decks without using loose fasteners or specialty tools.**

Deck Length:	16'	18'	20'	22'	24'	26'	28'	30'
4" Low Profile	9	6	4	2	1	n/a	n/a	n/a
6" Heavy Duty	22	15	11	8	6	4	3	2
8" Super Duty	40	34	24	18	13	10	8	6

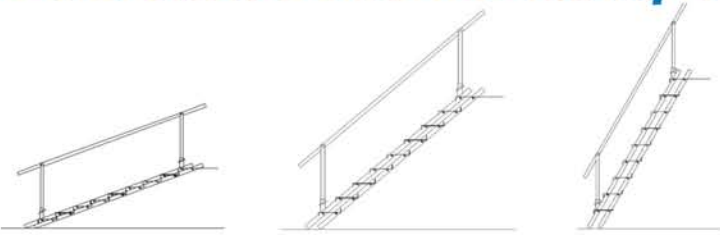

Acceptable Air Load (Inches Water Gauge)

**One intersection, a few miners, no heavy equipment.....equals one completed Kennedy overcast in less than a shift.**

# Part of the Good Air Solution...

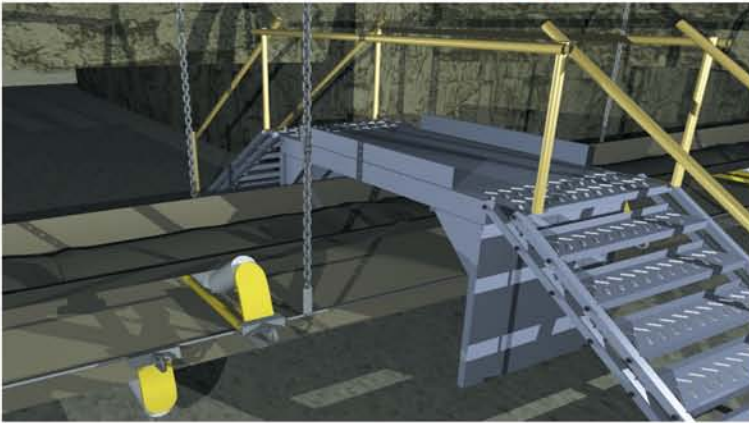

## Overcast Stairs & Ramps

**Our stairs automatically adjust to the height of the overcast.**

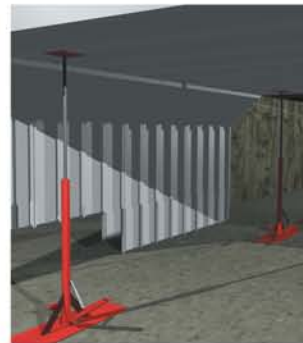

## Belt Crossings

**Free-standing large belt crossings for human or vehicle traffic that sit on the floor or small, lightweight belt crossings that attach to the belt frame structure are available.**

## Telescopic Sidewalls

**Telescopic or fixed height sidewalls available to accommodate any intersection height.**

**Special "Bridgecast" structures available for machinery traffic of any size including *CONTINUOUS MINERS!***

**Overcast with Sidewalls & Endwalls**

**Undercast with Endwalls & Wings**

**Overcast with Endwalls & Sidewalls with Machine Door**

**Many Configuration Options Available**
